PROFILE SUMMARY

Detailed-oriented Data Analyst skilled in Python, SQL, Power BI, Tableau, and Excel with experience analyzing multi-dimensional datasets and uncovering performance insights. Completed projects such as Olympics Data Analysis and Supermart Sales Analytics, delivering KPI-driven dashboards for decision-making. Currently pursuing MCA with a B.Sc. in Physics, combining analytical rigor with technical expertise. Passionate about solving business problems through data and creating clear, insight-driven visualizations.

EXPERIENCE

Data Analyst Intern – Data Cleaning & Visualization

NoviTec R&D Pvt Ltd | Coimbatore

Mar 2025 - May 2025

- Analyzed real-world datasets using Excel, SQL, Power BI, Tableau, and Python to uncover insights and support data-driven decisions.
- Performed data cleaning, statistical analysis, and built interactive dashboards that improved reporting clarity and helped stakeholders identify key performance trends.

Data Analyst Intern — Olympics & Retail Analysis

Unified Mentor | Haryana (Remote)

May 2025 – June 2025

1) Analyze Olympic dataset

- Analyzed Olympic datasets to identify medal patterns, gender trends, and top-performing countries using Python (Matplotlib, Seaborn).

[Project Link](#)

2) Retail Analysis

- Discovered key sales drivers such as seasonal demand, product category performance, and regional purchasing behavior.
- Built visualizations that highlighted revenue trends and supported better inventory planning.
